

Permapipe

PIPE FABRICATION

Experience matters

With a new purpose-built production facility, state-of-the-art equipment and more than 300 years of combined experience, Permapipe is your partner of choice for pipe fabrication projects.

On projects of any scale, ensure your pipe fabrication is delivered on time and to the highest possible standards by a company committed to quality and innovation.

Capabilities

- Carbon steel pipe fabrication
- Stainless steel pipe fabrication
- MIG welding (GMAW), TIG welding (GTAW) and manual arc welding (SMAW)
- Roll grooving up to 600 mm diameter (standard and AGS groove)
- Capacity to fabricate pipe up to 900 mm diameter at lengths of 12 metres and over
- Pre-fabrication and off-site assembly of modular systems and multi-service pipe racks
- Plasma cutting and oxy profile cutting
- 3 x 5 tonne capacity overhead cranes

Quality

- ISO 9001 Quality Assurance System
- Dedicated Research and Development department
- NATA accredited non-destructive testing
- Steel oxide anti-corrosive treatment
- Stainless steel passivation treatment

Professional associations

- Member of the Welding Technology Institute of Australia (WTIA)
- Member of the Australian Stainless Steel Development Association (ASSDA)
- Member of the Air Conditioning & Mechanical Contractors' Association (AMCA)
- Member of the Australian Institute of Refrigeration, Air Conditioning and Heating (AIRAH)
